

# Do you ever think about:

- Study Abroad
- Choosing your Major
- Finding a job after college?

**You are invited to participate in our study to help you make better decisions!**

## **\$15 Cash for Study Completion**

- Learn and implement professional modeling strategies to draw your future goals and explore your options.
- The study will consist of a pre-session questionnaire, an in-person modeling session, and a quick follow-up. The total approximate time the study will take is < 2 hours (60-90 minutes in person).
- To participate, you must have proficiency in English, and intend to be a registered student at Smith College in the 2019-2020 school year. You must also have no prior formal training in goal modeling.

Interested? **Complete our pre-session questionnaire**

Hi all,

Do you ever think about study abroad, choosing your major, or finding a job after college? If you answered yes to any of these questions, I would like to invite you to participate in a study examining the utility of different forms of goal modeling.

We hope to gain knowledge about the process of building goal models and the challenges and benefits offered to non-experts by various methods of goal model construction. To participate, you must have proficiency in English, and intend to be a registered student at Smith College in the 2019-2020 school year. You must also have no prior formal training in goal modeling.

If you fit these criteria, this is your chance to learn more about goal modeling. Upon completion of the in-person session, you will receive \$15 in cash for your participation. The study is expected to take approximately 120 minutes (60-90 minutes in person).

If you know people who fit the criteria and might be willing to participate, please forward this email and ask them to contact me.

The informed consent letter is available at <[insert.tinyurl.com](#)>. The letter informs you of the purpose of the study, and the risks and rewards associated with participating. Please review it carefully to help you determine if you wish to participate.

If you have any questions, please email me at [amgrubb@smith.edu](mailto:amgrubb@smith.edu).

Thanks!

Alicia
